

International Digital Job Fair

AI-based job matching & live-event

In this challenging time, IBM is supporting job seekers and business owners with [SkillsBuild Reignite](#). In addition to offering free access to skills and knowledge, we are hosting an international digital job fair to bring together employers looking for IT-entry level talent, with job seekers from our NPO partners. Not only is the digital job fair a way for employers to offer IT entry-level talent work experience opportunities, it offers the candidates a chance to experience online interviews too.

Recruit entry-level IT talent

Our candidates have skills in: *Cybersecurity, Software Development, Data Analysis, Linux System Administration*. You will find highly motivated local and international talent, starters and job changers from diverse backgrounds. Many of them will have some initial project experience.

UK Employers

Fill your open positions

We are looking for all different kinds of open positions

- + Internships
- + Apprenticeships
- + Traineeships
- + Part-time jobs
- + Full-time jobs

Preselect the candidates

We are offering a free AI-based matching solution to find the best candidates for your open positions.

Present your organisation

Present your organisation as an employer of choice during the virtual live event. Share insights about your culture, projects, benefits and the types of roles available.

Interview your candidates

A virtual live-event offers rooms for initial interviews and we help you to arrange them.

Stay connected with your candidates

The AI-based platform will keep you up-to-date about your hiring efforts for 60 days.
